To don armor other than a shield, you must incorporate it into your body over the course of 1 hour, during which you remain in contact with the armor. To doff armor, you must spend 1 hour removing it. You can rest while donning or doffing armor in this way. While you live, your armor can't be removed from your body against your will.

ATTACKS & SPELLCASTING

Healer (Action). You can spend one use of a healer's kit to tend to a creature and restore 1d6 + 4 hit points to it, plus additional hit points equal to the creature's maximum number of Hit Dice. The creature can't regain hit points from this feat again until it finishes a short or long rest. When you use a healer's kit to stabilize a dying creature, that creature also regains 1 hit point.

Fighting Style.

Close Quarters Shooter. When making a ranged attack while you are within 5 feet of a hostile creature, you do not have disadvantage on the attack roll. Your ranged attacks ignore half cover and three-quarters cover against targets within 30 feet of you. You have a +1 bonus to attack rolls on ranged attacks.

Second Wind (Bonus Action—1/Short Rest). You regain 1d10+11 hp.

Action Surge (1/Short Rest). On your turn, you can take one additional action on top of your regular action.

Extra Attack. You can attack three times, instead of once, whenever you take the Attack action on your turn.

Indomitable (1/Long Rest). You can reroll a saving throw that you fail. If you do so, you must use the new roll.

Gunsmith. Use Tinker's Tools to craft ammunition, repair damaged firearms, or draft and create new ones.

Grit. You have 1 Grit points. You regain 1 when you score a critical hit, or when you kill a significant threat. You also regain all spent grit points after finishing a short or long rest.

Deadeye Shot. Spend 1 Grit to gain advantage on the next attack with a firearm.

Quickdraw. Stow and draw firearms as a single object interaction on your turn.

Violent Shot. Spend Grit before making an attack roll with a firearm. For each Grit spent, the misfire score goes up +2, but on a hit, you roll one additional weapon die.

Trick Shot. Spend 1 Grit point to target a specific location on a target's body. Head: target makes a DC18 Constitution Saving Throw or has disadvantage on attack until end of its next turn. Arms: target makes a DC18 Strength saving throw or drop 1 held item of your choice. Torso: target is pushed 10ft away from you. Legs/Wings: target makes a DC18 Strength saving throw or is knocked prone.

Arcane Recovery. Once per day when you finish a short rest, you can choose expended spell slots to recover. The spell slots can have a combined level that is equal to or less than 2.

Conjuration Savant. The gold and time you must spend to copy a conjuration spell into your spellbook is halved.

Minor Conjuration (Action). You can conjure up an inanimate object in your hand or on the ground in an unoccupied space that you can see within 10 feet of you. This object can be no larger than 3 feet on a side and weigh no more than 10 pounds, and its form must be that of a nonmagical object that you have seen. The object is visibly magical, radiating dim light out to 5 feet. The object disappears after 1 hour, when you use this feature again, or if it takes or deals any damage.

CHARACTER PORTRAIT

ALLIES & ORGANIZATIONS

NAME

SYMBOL

I'm haunted by memories of war. I can't get the images of violence out of my mind. I've lost too many friends, and I'm slow to make new ones.

PERSONALITY TRAITS

Independence. When people follow orders blindly, they embrace a kind of tyranny. (Chaotic)

IDEAL

I'll never forget the crushing defeat my company suffered or the enemies who dealt it.

BOND

I made a terrible mistake in battle cost many lives—and I would do anything to keep that mistake secret.

FLAW

Military Rank

You have a military rank from your career as a soldier. Soldiers loyal to your former military organization still recognize your authority and influence, and they defer to you if they are of a lower rank. You can invoke your rank to exert influence over other soldiers and requisition simple equipment or horses for temporary use. You can also usually gain access to friendly military encampments and fortresses where your rank is recognized.

BACKGROUND FEATURE

A small cloth doll skewered with needles

TRINKET

War has been your life for as long as you care to remember. You trained as a youth, studied the use of weapons and armor, learned basic survival techniques, including how to stay alive on the battlefield. You might have been part of a standing national army or a mercenary company, or perhaps a member of a local militia who rose to prominence during a recent war.

When you choose this background, work with your DM to determine which military organization you were a part of, how far through its ranks you progressed, and what kind of experiences you had during your military career. Was it a standing army, a town guard, or a village militia? Or it might have been a noble's or merchant's private army, or a mercenary company.

DURATION	Instantaneous
COMPONENTS	V, S

You hurl a mote of fire at a creature or object within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 fire damage. A flammable object hit by this spell ignites if it isn't being worn or carried.

This spell's damage increases by 1d10 when you reach 5th level (2d10), 11th level (3d10), and 17th level (4d10).

Light

Evocation Cantrip

CASTING TIME	1 action
RANGE	Touch
DURATION	1 hour
COMPONENTS	V, M (a firefly or phosphorescent moss)

You touch one object that is no larger than 10 feet in any dimension. Until the spell ends, the object sheds bright light in a 20-foot radius and dim light for an additional 20 feet. The light can be colored as you like. Completely covering the object with something opaque blocks the light. The spell ends if you cast it again or dismiss it as an action.

If you target an object held or worn by a hostile creature, that creature must succeed on a Dexterity saving throw to avoid the spell.

Shocking Grasp

Evocation Cantrip

CASTING TIME	1 action
RANGE	Touch
DURATION	Instantaneous
COMPONENTS	V, S

Lightning springs from your hand to deliver a shock to a creature you try to touch. Make a melee spell attack against the target. You have advantage on the attack roll if the target is wearing armor made of metal. On a hit, the target takes 1d8 lightning damage, and it can't take reactions until the start of its next turn.

The spell's damage increases by 1d8 when you reach 5th level (2d8), 11th level (3d8), and 17th level (4d8).

Spellcasting (Wizard)

Burning Hands

1st-level evocation

CASTING TIME	1 action
RANGE	Self (15-foot cone)
DURATION	Instantaneous
COMPONENTS	V, S

As you hold your hands with thumbs touching and fingers spread, a thin sheet of flames shoots forth from your outstretched fingertips. Each creature in a 15-foot cone must make a Dexterity saving throw. A creature takes 3d6 fire damage on a failed save, or half as much damage on a successful one. The fire ignites any flammable objects in the area that aren't being worn or carried.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d6 for each slot level above 1st.

Spellcasting (Wizard)

Player's Handbook

Catapult

1st-level transmutation

CASTING TIME	1 action
RANGE	150 feet
DURATION	Instantaneous
COMPONENTS	S

Choose one object weighing 1 to 5 pounds within range that isn't being worn or carried. The object flies in a straight line up to 90 feet in a direction you choose before falling to the ground, stopping early if it impacts against a solid surface. If the object would strike a creature, that creature must make a Dexterity saving throw. On a failed save, the object strikes the target and stops moving. In either case, both the object and the creature or solid surface take 3d8 bludgeoning damage.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the maximum weight of objects that you can target with this spell increases by 5 pounds, and the damage increases by 1d8, for each slot level above 1st.

Spellcasting (Wizard)

Princes of the Apocalypse

Chromatic Orb

1st-level evocation

CASTING TIME	1 action
RANGE	90 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a diamond worth at least 50 gp)

You hurl a 4-inch-diameter sphere of energy at a creature that you can see within range. You choose acid, cold, fire, lightning, poison, or thunder for the type of orb you create, and then make a ranged spell attack against the target. If the attack hits, the creature takes 3d8 damage of the type you choose.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d8 for each slot level above 1st.

Spellcasting (Wizard)

Player's Handbook

Earthen Pillar

1st-level transmutation

CASTING TIME	1 action
RANGE	30 feet
DURATION	Instantaneous
COMPONENTS	V, S

You call forth a column of dirt to rise out of the ground in a space you can see within range. The pillar has a diameter of 5 feet, a height of 20 feet, an AC of 10 and 15 hit points. If the pillar is created under a Medium or smaller creature, that creature must succeed on a Dexterity save or be lifted by the pillar. Large creatures make the save with advantage. Huge or bigger creatures are unaffected as the earthen pillar is unable to be created under the creature's weight. A Large or smaller creature can choose to fail the save.

If the pillar is prevented from reaching its full height due to contact with another solid surface, a creature on the pillar takes 2d6 bludgeoning damage and is restrained. The restrained creature can use an action to make a strength or dexterity check (creature's choice) against the spell's save DC. On a success, the creature is no longer restrained and must either move or fall off the pillar.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, you can increase the height of the pillar by 5 feet and the potential damage it deals by 1d6 for each slot level above 1st.

Spellcasting (Wizard)

Grimlore's Grimoire

Ice Knife

1st-level conjuration

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	S, M (a drop of water or piece of ice)

You create a shard of ice and fling it at one creature within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 piercing damage. Hit or miss, the shard then explodes. The target and each creature within 5 feet of the point where the ice exploded must succeed on a Dexterity saving throw or take 2d6 cold damage.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the cold damage increases by 1d6 for each slot level above 1st.

Spellcasting (Wizard)

Princes of the Apocalypse

Magic Missile

1st-level evocation

CASTING TIME	1 action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You create three glowing darts of magical force. Each dart hits a creature of your choice that you can see within range. A dart deals 1d4 + 1 force damage to its target. The darts all strike simultaneously, and you can direct them to hit one creature or several.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the spell creates one more dart for each slot level above 1st.

Spellcasting (Wizard)

Player's Handbook

Shield

1st-level abjuration

CASTING TIME	1 reaction
RANGE	Self
DURATION	1 round
COMPONENTS	V, S

Reaction trigger: You are hit by an attack or targeted by the magic missile spell. An invisible barrier of magical force appears and protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from magic missile.

Spellcasting (Wizard)

Player's Handbook

Thunderwave

1st-level evocation

CASTING TIME	1 action
RANGE	Self (15-foot cube)
DURATION	Instantaneous
COMPONENTS	V, S

A wave of thunderous force sweeps out from you. Each creature in a 15-foot cube originating from you must make a Constitution saving throw. On a failed save, a creature takes 2d8 thunder damage and is pushed 10 feet away from you. On a successful save, the creature takes half as much damage and isn't pushed. In addition, unsecured objects that are completely within the area of effect are automatically pushed 10 feet away from you by the spell's effect, and the spell emits a thunderous boom audible out to 300 feet.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d8 for each slot level above 1st.

Spellcasting (Wizard)

Player's Handbook

Witch Bolt

1st-level evocation

CASTING TIME	1 action
RANGE	30 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a twig from a tree that has been struck by lightning)

A beam of crackling, blue energy lances out toward a creature within range, forming a sustained arc of lightning between you and the target. Make a ranged spell attack against that creature. On a hit, the target takes 1d12 lightning damage, and on each of your turns for the duration, you can use your action to deal 1d12 lightning damage to the target automatically. The spell ends if you use your action to do anything else. The spell also ends if the target is ever outside the spell's range or if it has total cover from you.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the initial damage increases by 1d12 for each slot level above 1st.

Spellcasting (Wizard)

Player's Handbook

Web

2nd-level conjuration

CASTING TIME	1 action
RANGE	60 feet
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (a bit of spiderweb)

You conjure a mass of thick, sticky webbing at a point of your choice within range. The webs fill a 20-foot cube from that point for the duration. The webs are difficult terrain and lightly obscure their area.

If the webs aren't anchored between two solid masses (such as walls or trees) or layered across a floor, wall, or ceiling, the conjured web collapses on itself, and the spell ends at the start of your next turn. Webs layered over a flat surface have a depth of 5 feet.

Each creature that starts its turn in the webs or that enters them during its turn must make a Dexterity saving throw. On a failed save, the creature is restrained as long as it remains in the webs or until it breaks free.

A creature restrained by the webs can use its actions to make a Strength check against your spell save DC. If it succeeds, it is no longer restrained.

The webs are flammable. Any 5-foot cube of webs exposed to fire burns away in 1 round, dealing 2d4 fire damage to any creature that starts its turn in the fire.

Fighter

Player's Handbook

Gunsmith

Archetype Feature

Upon choosing this archetype at 3rd level, you gain proficiency with Tinker's Tools. You may use them to craft ammunition, repair damaged firearms, or even draft and create new ones (DM's discretion). Some extremely intricate and experimental firearms are only available through crafting.

Gunslinger

Critical Role

Grit

Archetype Feature

Also starting at 3rd level, you gain a number of grit points equal to your Wisdom modifier (minimum of 1). You can spend grit points to perform various "shot" attacks with your firearms. An attack can only be affected by a single shot feature. You can regain spent Grit points in the following ways:

Critical hit with a firearm. Each time you score a critical hit with a firearm attack while in the heat of combat, you regain 1 spent grit point. Critical hits gained outside of die rolls (via enemy conditions) do not generate grit.

Killing blow with a firearm. Each time you reduce a dangerous creature of significant threat (DM's discretion) to 0 hit points with a firearm attack, and kill them, you regain 1 spent grit point.

You also regain all spent grit points after finishing a short or long rest.

Gunslinger

Critical Role

Deadeye Shot

Archetype Feature

Beginning at 3rd level, you can spend 1 grit point to gain advantage on the next attack roll you make with a firearm this round.

Gunslinger

Critical Role

Quickdraw

Archetype Feature

When you reach 7th level, you add your proficiency bonus to your initiative. You can also stow a firearm, then draw another firearm as a single object interaction on your turn.

Gunslinger

Critical Role

Violent Shot

Archetype Feature

Starting at 7th level, you've discovered ways to push your firearms past their intended potential at the peril of damaging them. You can spend 1 or more grit points before making an attack roll with a firearm. For each grit point spent, that attack gains +2 to the firearm's misfire score.

If the attack hits, you can roll one additional weapon damage die per grit point spent when determining damage of the attack.

Gunslinger

Critical Role

Trick Shot

Archetype Feature

By 10th level, you've honed your aim to fire off targeted shots to disable an opponent. You can spend 1 grit point before making an attack roll to target a specific location on the target's body. If the specified body part cannot be seen, or the target lacks the part in question, only normal damage is suffered with no additional effect.

Trick Shot DC = 8 + your proficiency bonus + your Dexterity modifier

Head. On a hit, the target takes normal damage and must make a Constitution saving throw or suffer disadvantage on attacks until the end of their next turn.

Arms. On a hit, the target takes normal damage and must make a Strength saving throw or drop 1 held item of your choice.

Torso. On a hit, the target takes normal damage and is pushed up to 10 feet directly away from you.

Legs/Wings. On a hit, the target takes normal damage and must make a Strength saving throw or get knocked prone.

Gunslinger

Critical Role

Arcane Recovery

Class Feature

You have learned to regain some of your magical energy by studying your spellbook. Once per day when you finish a short rest, you can choose expended spell slots to recover. The spell slots can have a combined level that is equal to or less than half your wizard level (rounded up), and none of the slots can be 6th level or higher.

For example, if you're a 4th-level wizard, you can recover up to two levels worth of spell slots. You can recover either a 2nd-level spell slot or two 1st-level spell slots.

Wizard

Player's Handbook

Conjuration Savant

Archetype Feature

Beginning when you select this school at 2nd level, the gold and time you must spend to copy a conjuration spell into your spellbook is halved.

School of Conjuration

Player's Handbook

Minor Conjunction

Archetype Feature

Starting at 2nd level when you select this school, you can use your action to conjure up an inanimate object in your hand or on the ground in an unoccupied space that you can see within 10 feet of you. This object can be no larger than 3 feet on a side and weigh no more than 10 pounds, and its form must be that of a nonmagical object that you have seen. The object is visibly magical, radiating dim light out to 5 feet.

The object disappears after 1 hour, when you use this feature again, or if it takes or deals any damage.
