Rabbit Hop (Bonus Action—4/Long Rest). You can jump 20 feet without provoking opportunity attacks. You can use this trait only if your speed is greater than 0.

PROFICIENCIES & LANGUAGES

Alert. You can't be surprised while you are conscious. Other creatures don't gain advantage on attack rolls against you as a result of being unseen by you.

Mystic Conflux. You have advantage on arcana checks when investigating magical objects or devices and can be attuned to a maximum of 4 magical items.

Magical Tinkering. You must have tinker's tools or other artisan's tools in hand. You touch a Tiny nonmagical object as an action and give it one of the following magical properties of your choice: The object sheds bright light in a 5-foot radius and dim light for an additional 5 feet. Whenever tapped by a creature, the object emits a recorded message (no more than 6 seconds long) that can be heard up to 10 feet away. The object continuously emits your choice of an odor or a nonverbal sound. The chosen phenomenon is perceivable up to 10 feet away. A static visual effect appears on one of the object's surfaces. The chosen property lasts indefinitely. As an action, you can touch the object and end the property early. You can bestow magic on up to 4 objects.

Infuse Item. Whenever you finish a long rest, you can touch a nonmagical object and imbue it with one of your artificer infusions, turning it into a magic item. Your infusion remains in an item indefinitely, but when you die, the infusion vanishes after 4 days have passed. You can infuse up to 3 nonmagical objects at the end of a long rest.

Boots of the Winding Path. You can infuse a pair of boots into Boots of the Winding Path.

Homunculus Servant. You can infuse a gem or crystal worth at least 100 gp into a homunculus servant. In combat, the homunculus shares your initiative count, but it takes its turn immediately after yours. It can move and use its reaction on its own, but the only action it takes on its turn is the Dodge action, unless you take a bonus action on your turn to command it to take another action. That action can be one in its stat block or some other action. If you are incapacitated, the homunculus can take any action of its choice, not just Dodge. The homunculus regains 2d6 hit points if the mending spell is cast on it. If it dies, it vanishes, leaving its heart in its space.

Enhanced Defense. You can infuse a suit of armor or a shield into a +1 armor or a +1 shield.

Repeating Shot. You can infuse a simple or martial weapon with the ammunition property into a repeating weapon.

Arcane Cord. While holding this item, a creature can telepathically command the cord to move as its wielder desires. As an action, the cord's wielder can have the cord tie itself to a creature or object that it can reach. If the target is a creature, it can make a Dexterity saving throw to avoid the cord, becoming tied by it on a failed save.

Spell-Refueling Ring. You can infuse a ring into a Spell-Refueling Ring.

The Right Tool for the Job. With thieves' tools or artisan's in hand, you can magically create one set of artisan's tools in an unoccupied space within 5 feet of you. This creation requires 1 hour of uninterrupted work.

Tool Expertise. Your proficiency bonus is doubled for any ability check you make that uses your proficiency with a tool.

Flash of Genius (Reaction—4/Long Rest). When you or another creature you can see within 30 feet of you makes an ability check or a saving throw, you can use your reaction to add 2 to the roll.

Battle Ready. When you attack with a magic weapon, you can use your Intelligence modifier, instead of Strength or Dexterity modifier, for the attack and damage rolls.

Steel Defender. In combat, the defender shares your initiative count, but it takes its turn immediately after yours. It can move and use its reaction on its own, but the only action it takes on its turn is the Dodge action, unless you take a bonus action on your turn to command it to take another action. That action can be one in its stat block or some other action. If you are incapacitated, the defender can take any action of its choice, not just Dodge. If the mending spell is cast on it, it regains 2d6 hit points. If it has died within the last hour, you can use your smith's tools as an action to revive it, provided you are within 5 feet of it and you expend a spell slot of 1st level or higher. The steel defender returns to life after 1 minute with all its hit points restored. At the end of a long rest, you can create a new steel defender if you have your smith's tools with you.

Extra Attack. You can attack twice, rather than once, whenever you take the Attack action on your turn.

Clockwork Magic. Whenever you gain a sorcerer level, you can replace one spell you gained from this feature with another spell of the same level. The new spell must be an abjuration or a transmutation spell from the sorcerer, warlock, or wizard spell list.

Restore Balance (Reaction—4/Long Rest). When a creature you can see within 60 feet of you is about to roll a d20 with advantage or disadvantage, you can prevent the roll from being affected by advantage and disadvantage.

Eldritch Invocations.

Armor of Shadows. You can cast mage armor on yourself at will, without expending a spell slot or material components.

Pact of the Cloak (Bonus Action—2/Short Rest). When you select this boon, you may spend a short rest creating an eldritch bond with a cloak that you are touching for the entire time. When completed, the cloak automatically attaches to your body, and cannot be removed from your body without your willing. While this bond exists, you may use a bonus action to teleport up to 30ft in any direction, you may do this 2 times per short rest.

Eldritch Versatility. Whenever you reach a level in this class that grants the Ability Score Improvement feature, you can do one of the following:

Replace one cantrip you learned from this class's Pact Magic feature with another cantrip from the warlock spell list.

Replace the option you chose for the Pact Boon feature with one of that feature's other options.

Ruidium Suppression (1/Long Rest). At each dawn, choose an effect caused by Ruidium corruption affecting you. Then roll a D20. If you roll a 1, you suffer an extra level of ruidium corruption, if you do not, then you ignore this effect until your next long rest.

Ruidium Empowerment (4/Long Rest). Choose a willing creature you can see within 30ft of you. This character immediately gains XD10 temporary HP, and when they hit with a weapon attack, they deal an extra XD4 psychic damage (where X is your proficiency modifier).

All-Purpose Tool, +1. This simple screwdriver can transform into a variety of tools; as an action, you can touch the item and transform it into any type of artisan's tool of your choice (see the "Equipment" chapter in the Player's Handbook for a list of artisan's tools). Whatever form the tool takes, you are proficient with it.

While holding this tool, you gain a +1 bonus to the spell attack rolls and the saving throw DCs of your artificer spells.

As an action, you can focus on the tool to channel your creative forces. Choose a cantrip that you don't know from any class list. For 8 hours, you can cast that cantrip, and it counts as an artificer cantrip for you. Once this property is used, it can't be used again until the next dawn.

Coiling Grasp Tattoo. Produced by a special needle, this magic tattoo has long intertwining designs.

Tattoo Attunement. To attune to this item, you hold the needle to your skin where you want the tattoo to appear, pressing the needle there throughout the attunement process. When the attunement is complete, the needle turns into the ink that becomes the tattoo, which appears on the skin.

If your attunement to the tattoo ends, the tattoo vanishes, and the needle reappears in your space.

Grasping Tendrils. While the tattoo is on your skin, you can, as an action, cause the tattoo to extrude into inky tendrils, which reach for a creature you can see within 15 feet of you. The creature must succeed on a DC 14 Strength saving throw or take 3d6 force damage and be grappled by you. As an action, the creature can escape the grapple by succeeding on a DC 14 Strength (Athletics) or Dexterity (Acrobatics) check. The grapple also ends if you halt it (no action required), if the creature is ever more than 15 feet away from you, or if you use this tattoo on a different creature.

Headband of Intellect. Your Intelligence score is 19 while you wear this headband. It has no effect on you if your Intelligence is 19 or higher without it.

Animated Shield. While holding this shield, you can speak its command word as a bonus action to cause it to animate. The shield leaps into the air and hovers in your space to protect you as if you were wielding it, leaving your hands free. The shield remains animated for 1 minute, until you use a bonus action to end this effect, or until you are incapacitated or die, at which point the shield falls to the ground or into your hand if you have one free.

Ruidium Shortsword. This magic weapon has a dull, rusty color or has veins of ruidium running through it. While this weapon is on your person, you gain the following benefits:

- You can breathe water.
- You gain a swimming speed equal to your walking speed.

Ruidium Strike. A creature you hit with this weapon takes an extra 2d6 psychic damage.

Ruidium Corruption. When you roll a 1 on an attack roll made with this weapon, you must make a DC 20 Charisma saving throw. On a failed save, you gain 1 level of exhaustion. If you are not already suffering from ruidium corruption, you become corrupted when you fail this save.

If Ruidium Is Destroyed. If the Apotheon is killed or redeemed, all the ruidium in Exandria is destroyed instantly, and a ruidium weapon becomes a +2 weapon.

Clockwork Amulet. This copper amulet contains tiny interlocking gears and is powered by magic from Mechanus, a plane of clockwork predictability. A creature that puts an ear to the amulet can hear faint ticking and whirring noises coming from within.

When you make an attack roll while wearing the amulet, you can forgo rolling the d20 to get a 10 on the die. Once used, this property can't be used again until the next dawn.

CASTING TIME 1 action

RANGE 10 feet

DURATION Up to 1 hour

COMPONENTS V, S

This spell is a minor magical trick that novice spellcasters use for practice. You create one of the following magical effects within range:

- You instantaneously light or snuff out a candle, a torch, or a small campfire.
- You instantaneously clean or soil an object no larger than 1 cubic foot.
- You chill, warm, or flavor up to 1 cubic foot of nonliving material for 1 hour.
- You make a color, a small mark, or a symbol appear on an object or a surface for 1 hour.
- You create a nonmagical trinket or an illusory image that can fit in your hand and that lasts until the end of your next turn.

1st-level abjuration

CASTING TIME	1 reaction, which you take when you take acid, cold, fire, lightning, or thunder damage
RANGE	Self
DURATION	1 round
COMPONENTS	S

The spell captures some of the incoming energy, lessening its effect on you and storing it for your next melee attack. You have resistance to the triggering damage type until the start of your next turn. Also, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 damage of the triggering type, and the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the extra damage increases by 1d6 for each slot level above 1st.

Alarm

1st-level abjuration (ritual)

CASTING TIME	1 minute
RANGE	30 feet
DURATION	8 hours
COMPONENTS	V, S, M (a tiny bell and a piece of fine silver wire)

You set an alarm against unwanted intrusion. Choose a door, a window, or an area within range that is no larger than a 20-foot cube. Until the spell ends, an alarm alerts you whenever a tiny or larger creature touches or enters the warded area. When you cast the spell, you can designate creatures that won't set off the alarm. You also choose whether the alarm is mental or audible.

A mental alarm alerts you with a ping in your mind if you are within 1 mile of the warded area. This ping awakens you if you are sleeping.

An audible alarm produces the sound of a hand bell for 10 seconds within 60 feet.

Armor of Agathys (Psychic)

1st-level abjuration

CASTING TIME	1 action
RANGE	Self
DURATION	1 hour
COMPONENTS	V, S, M (a cup of water)

A protective magical force surrounds you, manifesting as a spectral frost that covers you and your gear. You gain 5 temporary hit points for the duration. If a creature hits you with a melee attack while you have these hit points, the creature takes 5 psychic damage.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, both the temporary hit points and the psychic damage increase by 5 for each slot above 1st.

Pact Magic (Warlock)

Player's Handbook

Bottomless Stomach

1st-level transmutation (alkemancy)

CASTING TIME	1 action
RANGE	Self
DURATION	Concentration, up to 1 hour
COMPONENTS	V

When you cast this spell, you gain the ability to consume dangerous substances and contain them in an extradimensional reservoir in your stomach. The spell allows you to swallow most liquids, such as acids, alcohol, poison, and even quicksilver, and hold them safely in your stomach. You are unaffected by swallowing the substance, but the spell doesn't give you resistance or immunity to the substance in general; for example, you could safely drink a bucket of a black dragon's acidic spittle, but you'd still be burned if you were caught in the dragon's breath attack or if that bucket of acid were dumped over your head.

The spell allows you to store up to 10 gallons of liquid at one time. The liquid doesn't need to all be of the same type, and different types don't mix while in your stomach. Any liquid in excess of 10 gallons has its normal effect when you try to swallow it.

At any time before you stop concentrating on the spell, you can regurgitate up to 1 gallon of liquid stored in your stomach as a bonus action. The liquid is vomited into an adjacent 5-foot square. A target in that square must succeed on a DC 15 Dexterity saving throw or be affected by the liquid. The GM determines the exact effect based on the type of liquid regurgitated, using 1d6 damage of the appropriate type as the baseline.

When you stop concentrating on the spell, its duration expires, or it's dispelled, the extradimensional reservoir and the liquid it contains cease to exist.

Prepared (Artificer)

Catapult

1st-level transmutation

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	S

Choose one object weighing 1 to 5 pounds within range that isn't being worn or carried. The object flies in a straight line up to 90 feet in a direction you choose before falling to the ground, stopping early if it impacts against a solid surface. If the object would strike a creature, that creature must make a Dexterity saving throw. On a failed save, the object strikes the target and stops moving. When the object strikes something, the object and what it strikes each take 3d8 bludgeoning damage.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the maximum weight of objects that you can target with this spell increases by 5 pounds, and the damage increases by 1d8, for each slot level above 1st.

Prepared (Artificer)

Xanathar's Guide to Everything

Command

1st-level enchantment

CASTING TIME	1 action
RANGE	60 feet
DURATION	1 round
COMPONENTS	V

You speak a one-word command to a creature you can see within range. The target must succeed on a Wisdom saving throw or follow the command on its next turn. The spell has no effect if the target is undead, if it doesn't understand your language, or if your command is directly harmful to it. Some typical commands and their effects follow. You might issue a command other than one described here. If you do so, the DM determines how the target behaves. If the target can't follow your command, the spell ends.

Approach. The target moves toward you by the shortest and most direct route, ending its turn if it moves within 5 feet of you.

Drop. The target drops whatever it is holding and then ends its turn.

Flee. The target spends its turn moving away from you by the fastest available means.

Gravel. The target falls prone and then ends its turn.

Halt. The target doesn't move and takes no actions. A flying creature stays aloft, provided that it is able to do so. If it must move to stay aloft, it flies the minimum distance needed to remain in the air.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, you can affect one additional creature for each slot level above 1st. The creatures must be within 30 feet of each other when you target them.

DURATION	Instantaneous
COMPONENTS	V, S

A creature you touch regains a number of hit points equal to 1d8 + your spellcasting ability modifier. This spell has no effect on undead or constructs.

Detect Magic

1st-level divination (ritual)

CASTING TIME	1 action
RANGE	Self
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, S

For the duration, you sense the presence of magic within 30 feet of you. If you sense magic in this way, you can use your action to see a faint aura around any visible creature or object in the area that bears magic, and you learn its school of magic, if any. The spell can penetrate most barriers, but is blocked by 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt.

Prepared (Artificer)

Player's Handbook

Disguise Self

1st-level illusion

CASTING TIME	1 action
RANGE	Self
DURATION	1 hour
COMPONENTS	V, S

You make yourself—including your clothing, armor, weapons, and other belongings on your person—look different until the spell ends or until you use your action to dismiss it. You can seem 1 foot shorter or taller and can appear thin, fat, or in between. You can't change your body type, so you must adopt a form that has the same basic arrangement of limbs. Otherwise, the extent of the illusion is up to you.

The changes wrought by this spell fail to hold up to physical inspection. For example, if you use this spell to add a hat to your outfit, objects pass through the hat, and anyone who touches it would feel nothing or would feel your head and hair. If you use this spell to appear thinner than you are, the hand of someone who reaches out to touch you would bump into you while it was seemingly still in midair.

To discern that you are disguised, a creature can use its action to inspect your appearance and must succeed on an Intelligence (Investigation) check against your spell save DC.

COMPONENTS	V

Strixhaven: A Curriculum of Chaos

Snare

1st-level abjuration

CASTING TIME	1 minute
RANGE	Touch
DURATION	8 hours
COMPONENTS	S, M (25 feet of rope, which the spell consumes)

As you cast this spell, you use the rope to create a circle with a 5-foot radius on the ground or the floor. When you finish casting, the rope disappears and the circle becomes a magic trap.

This trap is nearly invisible, requiring a successful Intelligence (Investigation) check against your spell save DC to be discerned.

The trap triggers when a Small, Medium, or Large creature moves onto the ground or the floor in the spell's radius. That creature must succeed on a Dexterity saving throw or be magically hoisted into the air, leaving it hanging upside down 3 feet above the ground or the floor. The creature is restrained there until the spell ends.

A restrained creature can make a Dexterity saving throw at the end of each of its turns, ending the effect on itself on a success.

Alternatively, the creature or someone else who can reach it can use an action to make an Intelligence (Arcana) check against your spell save DC. On a success, the restrained effect ends.

After the trap is triggered, the spell ends when no creature is restrained by it.

2nd-level transmutation

CASTING TIME	1 action
RANGE	Self
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S

You assume a different form. When you cast the spell, choose one of the following options, the effects of which last for the duration of the spell.

While the spell lasts, you can end one option as an action to gain the benefits of a different one.

Aquatic Adaptation. You adapt your body to an aquatic environment, sprouting gills, and growing webbing between your fingers. You can breathe underwater and gain a swimming speed equal to your walking speed.

Change Appearance. You transform your appearance. You decide what you look like, including your height, weight, facial features, sound of your voice, hair length, coloration, and distinguishing characteristics, if any. You can make yourself appear as a member of another race, though none of your statistics change. You also don't appear as a creature of a different size than you, and your basic shape stays the same; if you're bipedal, you can't use this spell to become quadrupedal, for instance. At any time for the duration of the spell, you can use your action to change your appearance in this way again.

Natural Weapons. You grow claws, fangs, spines, horns, or a different natural weapon of your choice. Your unarmed strikes deal 1d6 bludgeoning, piercing, or slashing damage, as appropriate to the natural weapon you chose, and you are proficient with your unarmed strikes. Finally, the natural weapon is magic and you have a +1 bonus to the attack and damage rolls you make using it.

Charm of Protection

2nd-level abjuration

CASTING TIME	1 minute
RANGE	Touch
DURATION	24 hours
COMPONENTS	V, S, M (a golden ring, bracelet, or necklace worth at least 50 gp in total)

You touch the piece of jewelry that serves as the material component for this spell, bestowing magical energy into it. This magic activates when certain conditions are met. By default, it activates when an aberration, celestial, elemental, fey, fiend, or undead moves within 30 feet of the jewelry. This trigger can be refined to only activate for a subset of those creature types, and you can choose to exclude specific creatures of your choice from triggering the activation.

When the magic activates, the jewelry begins to glow, emitting bright light in a 10-foot radius and dim light 10 feet beyond that. The color of this light depends on the creature type of the creature that activated this magic: purple for aberrations, white for celestials, blue for elementals, yellow for fey, red for fiends, and green for undead. Also, the jewelry creates a magical ward. Roll 4d4. The ward has hit points equal to the number rolled. Whenever the jewelry's wearer would take damage from an aberration, celestial, elemental, fey, fiend, or undead, the ward takes the damage instead. If this damage reduces the ward to 0 hit points, the wearer takes any remaining damage.

The magic remains activated for 10 minutes, or until the ward is reduced to 0 hit points. Then the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the ward's hit points increase by 2d4 for each slot level above 2nd.

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V, S

Authority is the manifestation of power over another, and power is the expression of one's will upon the world.

You thrust out your hands, unleashing a deadly coil of lightning infused with wrathful hate towards a creature you can see within range. The target must make a Constitution saving throw. If they fail, they take 2d8 lightning damage. If the target is below their maximum hit points, the lightning forks to another creature of your choosing within 10 feet of the target. This new target must make their own Constitution saving throw, taking 2d8 lightning damage if they fail. This process can repeat up to three times, and the same target cannot be affected twice. If a target succeeds on their saving throw and is below their maximum hit points, they take 1d8 necrotic damage instead.

CASTING TIME	1 action
RANGE	Self (90 feet)
DURATION	Concentration, up to 10 minutes
COMPONENTS	V, S, M (a tiny silver trident)

A favorite of torturous fiends and hungry fishermen.

You conjure three barbed harpoons of intricately twisted silver. They float in the air above your head for the spell's duration, and fade when it ends. When you cast the spell, and as an action on each of your subsequent turns, you can make a ranged spell attack to hurl a harpoon at a target within 90 feet of you. If you miss, the harpoon fades. If you hit, the target takes 2d6 piercing damage and must make a Dexterity saving throw. If they fail, the harpoon lodges in their flesh.

While a creature has been skewered by a harpoon, its speed is halved, and you can use a bonus action to cause an invisible chain to pull taut, hauling the creature 10 feet towards you for each harpoon lodged in it. The target can use an action to pull any number of harpoons out, taking 3d6 necrotic damage for each harpoon removed and causing the harpoon to fade. Once all three harpoons have faded, the spell ends.

Enlarge/Reduce

2nd-level transmutation

CASTING TIME	1 action
RANGE	30 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a pinch of powdered iron)

You cause a creature or an object you can see within range to grow larger or smaller for the duration. Choose either a creature or an object that is neither worn nor carried. If the target is unwilling, it can make a Constitution saving throw. On a success, the spell has no effect.

If the target is a creature, everything it is wearing and carrying changes size with it. Any item dropped by an affected creature returns to normal size at once.

Enlarge. The target's size doubles in all dimensions, and its weight is multiplied by eight. This growth increases its size by one category - from Medium to Large, for example. If there isn't enough room for the target to double its size, the creature or object attains the maximum possible size in the space available. Until the spell ends, the target also has advantage on Strength checks and Strength saving throws. The target's weapons also grow to match its new size. While these weapons are enlarged, the target's attack with them deal 1d4 extra damage.

Reduce. The target's size is halved in all dimensions, and its weight is reduced to one-eighth of normal. This reduction decreases its size by one category - from Medium to Small, for example. Until the spell ends, the target also has disadvantage on Strength checks and Strength saving throws. The target's weapons also shrink to match its new size. While these weapons are reduced, the target's attacks with them deal 1d4 less damage (this can't reduce the damage below 1).

Fire Bombs

2nd-level conjuration

CASTING TIME	1 action
RANGE	60 feet
DURATION	1 minute
COMPONENTS	V, S, M (chunks of coal)

You conjure three fist-sized fiery orbs and hurl them at targets within range. You can hurl them at one target or several. For each orb hurled at a creature, that creature can make a Dexterity saving throw to avoid the orb. On a failed save, the orb sticks to that creature for the duration. On a successful save, the orb falls, sticking to the ground in that creature's space. As an action, a creature can remove an orb from itself and let it fall to the ground. Each orb sheds dim light in a 5-foot radius.

As a bonus action, you can cause one of the unexploded orbs to explode. Each creature within 10 feet of the orb must make a Dexterity saving throw, taking 2d4 fire damage on a failed save or half as much damage on a successful one. A creature stuck by the exploding orb automatically fails this saving throw.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you conjure and throw an additional orb for each slot level above 2nd. If you use a spell of 4th level or higher, you can explode 2 orbs with a single bonus action. This increases to 3 with a 6th level slot, and 4 with an 8th level slot.

COMPONENTS	V, S, M (a small bit of honeycomb and jade dust worth at least 10 gp, which the spell consumes)

You implant a message within an object in range, a message that is uttered when a trigger condition is met. Choose an object that you can see and that isn't being worn or carried by another creature. The speak the message, which must be 25 words or less, though it can be delivered over as long as 10 minutes. Finally, determine the circumstance that will trigger the spell to deliver your message.

When that circumstance occurs, a magical mouth appears on the object and recites the message in your voice and at the same volume you spoke. If the object you chose has a mouth or something that looks like a mouth (for example, the mouth of a statue), the magical mouth appears there so that words appear to come from the object's mouth. When you cast this spell, you can have the spell end after it delivers its message, or it can remain and repeats its message whenever the trigger occurs.

The triggering circumstance can be as general or as detailed as you like, though it must be based on visual or audible conditions that occur within 30 feet of the object. For example, you could instruct the mouth to speak when any creature moves within 30 feet of the object or when a silver bell rings within 30 feet of it.

Rope Trick

2nd-level transmutation

CASTING TIME	1 action
RANGE	Touch
DURATION	1 hour
COMPONENTS	V, S, M (powdered corn extract and a twisted loop of parchment)

You touch a length of rope that is up to 60 feet long. One end of the rope then rises into the air until the whole rope hangs perpendicular to the ground. At the upper end of the rope, an invisible entrance opens to an extradimensional space that lasts until the spell ends. The extradimensional space can be reached by climbing to the top of the rope. The space can hold as many as eight Medium or smaller creatures. The rope can be pulled into the space, making the rope disappear from view outside the space. Attacks and spells can't cross through the entrance into or out of the extradimensional space, but those inside can see out of it as if through a 3-foot-by-5-foot window centered on the rope. Anything inside the extradimensional space drops out when the spell ends.

CASTING TIME	1 action
RANGE	90 feet
DURATION	Instantaneous
COMPONENTS	V, S

You magically twist space around another creature you can see within range. The chosen space must be on a surface or in a liquid that can support the target without the target having to squeeze.

2nd-level abjuration

CASTING TIME	1 action
RANGE	Touch
DURATION	1 hour
COMPONENTS	V, S, M (a pair of platinum rings worth at least 50 gp each, which you and target must wear for the duration)

This spell wards a willing creature you touch and creates a mystic connection between you and the target until the spell ends. While the target is within 60 feet of you, it gains a +1 bonus to AC and saving throws, and it has resistance to all damage. Also, each time it takes damage, you take the same amount of damage.

The spell ends if you drop to 0 hit points or if you and the target become separated by more than 60 feet. It also ends if the spell is cast again on either of the connected creatures. You can also dismiss the spell as an action.

Player's Handbook

Web

2nd-level conjuration

CASTING TIME	1 action
RANGE	60 feet
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (a bit of spiderweb)

You conjure a mass of thick, sticky webbing at a point of your choice within range. The webs fill a 20-foot cube from that point for the duration. The webs are difficult terrain and lightly obscure their area.

If the webs aren't anchored between two solid masses (such as walls or trees) or layered across a floor, wall, or ceiling, the conjured web collapses on itself, and the spell ends at the start of your next turn. Webs layered over a flat surface have a depth of 5 feet.

Each creature that starts its turn in the webs or that enters them during its turn must make a Dexterity saving throw. On a failed save, the creature is restrained as long as it remains in the webs or until it breaks free.

A creature restrained by the webs can use its actions to make a Strength check against your spell save DC. If it succeeds, it is no longer restrained.

The webs are flammable. Any 5-foot cube of webs exposed to fire burns away in 1 round, dealing 2d4 fire damage to any creature that starts its turn in the fire.

Prepared (Artificer)

Player's Handbook

Your creature type is Humanoid.

When you fail a Dexterity saving throw, you can use your reaction to roll a d4 and add it to the save, potentially turning the failure into a success. You can't use this reaction if you're prone or your speed is 0.

As a bonus action, you can jump a number of feet equal to five times your proficiency bonus, without provoking opportunity attacks. You can use this trait only if your speed is greater than 0. You can use it a number of times equal to your proficiency bonus, and you regain all expended uses when you finish a long rest.

Always on the lookout for danger, you gain the following benefits:

- You gain a +5 bonus to initiative.
- You can't be surprised while you are conscious.
- Other creatures don't gain advantage on attack rolls against you as a result of being unseen by you.

Through your repeated exposure to the natural flow of arcane magic throughout Exandria, you've adapted to attune with additional enchantments, though the process can be physically taxing. You gain the following benefits:

- You have advantage on Intelligence (Arcana) checks when investigating the nature of a magical object or device.
- You can now be attuned to a maximum of four magical items, rather than the normal limit of three. Other attunement limitations still apply.

At 1st level, you learn how to invest a spark of magic into mundane objects. To use this ability, you must have thieves' tools or other artisan's tools in hand. You then touch a Tiny nonmagical object as an action and give it one of the following magical properties of your choice:

- The object sheds bright light in a 5-foot radius and dim light for an additional 5 feet.
- Whenever tapped by a creature, the object emits a recorded message that can be heard up to 10 feet away. You utter the message when you bestow this property on the object, and the recording can be no more than 6 seconds long.
- The object continuously emits your choice of an odor or a nonverbal sound (wind, waves, chirping, or the like). The chosen phenomenon is perceivable up to 10 feet away.
- A static visual effect appears on one of the object's surfaces. This effect can be a picture, up to 25 words of text, lines and shapes, or a mixture of these elements, as you like.

The chosen property lasts indefinitely. As an action, you can touch the object and end the property early.

You can bestow magic on multiple objects, touching one object each time you use this feature, though a single object can only bear one property at a time. The maximum number of objects you can affect with this feature at one time is equal to your Intelligence modifier (minimum of one object). If you try to exceed your maximum, the oldest property immediately ends, and then the new property applies.

At 2nd level, you gain the ability to imbue mundane items with certain magical infusions. The magic items you create with this feature are effectively prototypes of permanent items.

INFUSIONS KNOWN

When you gain this feature, pick four artificer infusions to learn, choosing from the "Artificer Infusions" section at the end of the class's description. You learn additional infusions of your choice when you reach certain levels in this class, as shown in the Infusions Known column of the Artificer table.

Whenever you gain a level in this class, you can replace one of the artificer infusions you learned with a new one.

INFUSING AN ITEM

Whenever you finish a long rest, you can touch a nonmagical object and imbue it with one of your artificer infusions, turning it into a magic item. An infusion works on only certain kinds of objects, as specified in the infusion's description. If the item requires attunement, you can attune yourself to it the instant you infuse the item. If you decide to attune to the item later, you must do so using the normal process for attunement (see "Attunement" in chapter 7 of the Dungeon Master's Guide).

Your infusion remains in an item indefinitely, but when you die, the infusion vanishes after a number of days have passed equal to your Intelligence modifier (minimum of 1 day). The infusion also vanishes if you give up your knowledge of the infusion for another one.

You can infuse more than one nonmagical object at the end of a long rest; the maximum number of objects appears in the Infused Items column of the Artificer table. You must touch each of the objects, and each of your infusions can be in only one object at a time. Moreover, no object can bear more than one of your infusions at a time. If you try to exceed your maximum number of infusions, the oldest infusion immediately ends, and then the new infusion applies.

If an infusion ends on an item that contains other things, like a bag of holding, its contents harmlessly appear in and around its space.

Prerequisite: 6th-level artificer

Item: A pair of boots (requires attunement)

While wearing these boots, a creature can teleport up to 15 feet as a bonus action to an unoccupied space the creature can see. The creature must have occupied that space at some point during the current turn.

Item: A gem or crystal worth at least 100 gp

You learn intricate methods for magically creating a special homunculus that serves you. The item you infuse serves as the creature's heart, around which the creature's body instantly forms.

You determine the homunculus's appearance. Some artificers prefer mechanical-looking birds, whereas some like winged vials or miniature, animate cauldrons.

The homunculus is friendly to you and your companions, and it obeys your commands. See this creature's game statistics in the Homunculus Servant stat block, which uses your proficiency bonus (PB) in several places.

In combat, the homunculus shares your initiative count, but it takes its turn immediately after yours. It can move and use its reaction on its own, but the only action it takes on its turn is the Dodge action, unless you take a bonus action on your turn to command it to take another action. That action can be one in its stat block or some other action. If you are incapacitated, the homunculus can take any action of its choice, not just Dodge.

The homunculus regains 2d6 hit points if the mending spell is cast on it. If it dies, it vanishes, leaving its heart in its space.

Item: A suit of armor or a shield

A creature gains a +1 bonus to Armor Class while wearing (armor) or wielding (shield) the infused item.

The bonus increases to +2 when you reach 10th level in this class.

Item: A simple or martial weapon with the ammunition property (requires attunement)

This magic weapon grants a +1 bonus to attack and damage rolls made with it when it's used to make a ranged attack, and it ignores the loading property if it has it.

If you load no ammunition in the weapon, it produces its own, automatically creating one piece of magic ammunition when you make a ranged attack with it. The ammunition created by the weapon vanishes the instant after it hits or misses a target.

Item: a length of chain or rope of at most 100 feet

Upon its infusion, this item begins to emit dim light out to a range of 5 feet. While holding this item, a creature can telepathically command the cord to move as its wielder desires. As an action, the cord's wielder can have the cord tie itself to a creature or object that it can reach. If the target is a creature, it can make a Dexterity saving throw to avoid the cord, becoming tied by it on a failed save. A creature tied by the cord must make a Strength saving throw whenever it attempts to move away from the creature holding the rope for the first time on a turn. On a failed save, the creature is unable to move away from the creature holding the rope until the start of its next turn. On a successful save, it can move away from that creature at half speed until the start of its next turn, pulling the rope's holder along with it. The creature can also use its action to make a Strength saving throw, releasing itself from the rope on a successful save. The rope's holder can also choose to release the creature at any time (no action required). The DCs of all of these saving throws equals the spell save DC of the artificer that infused this item.

Prerequisite: 6th-level artificer

Item: A ring (requires attunement)

While wearing this ring, the creature can recover one expended spell slot as an action. The maximum level of the recovered slot is equal to the number of magic items the wearer is currently attuned to. Once used, the ring can't be used again until the next dawn.

At 3rd level, you learn how to produce exactly the tool you need: with thieves' tools or artisan's tools in hand, you can magically create one set of artisan's tools in an unoccupied space within 5 feet of you. This creation requires 1 hour of uninterrupted work, which can coincide with a short or long rest. Though the product of magic, the tools are nonmagical, and they vanish when you use this feature again.

Starting at 6th level, your proficiency bonus is doubled for any ability check you make that uses your proficiency with a tool.

Starting at 7th level, you gain the ability to come up with solutions under pressure. When you or another creature you can see within 30 feet of you makes an ability check or a saving throw, you can use your reaction to add your Intelligence modifier to the roll.

You can use this feature a number of times equal to your Intelligence modifier (minimum of once). You regain all expended uses when you finish a long rest.

When you reach 3rd level, your combat training and your experiments with magic have paid off in two ways:

- You gain proficiency with martial weapons.
- When you attack with a magic weapon, you can use your Intelligence modifier, instead of Strength or Dexterity modifier, for the attack and damage rolls.

By 3rd level, your tinkering has borne you a faithful companion, a steel defender. It is friendly to you and your companions, and it obeys your commands. See this creature's game statistics in the Steel Defender stat block, which uses your proficiency bonus (PB) in several places. You determine the creature's appearance and whether it has two legs or four; your choice has no effect on its game statistics.

In combat, the defender shares your initiative count, but it takes its turn immediately after yours. It can move and use its reaction on its own, but the only action it takes on its turn is the Dodge action, unless you take a bonus action on your turn to command it to take another action. That action can be one in its stat block or some other action. If you are incapacitated, the defender can take any action of its choice, not just Dodge.

If the mending spell is cast on it, it regains 2d6 hit points. If it has died within the last hour, you can use your smith's tools as an action to revive it, provided you are within 5 feet of it and you expend a spell slot of 1st level or higher. The steel defender returns to life after 1 minute with all its hit points restored.

At the end of a long rest, you can create a new steel defender if you have your smith's tools with you. If you already have a steel defender from this feature, the first one immediately perishes. The defender also perishes if you die.

Starting at 5th level, you can attack twice, rather than once, whenever you take the Attack action on your turn.

1st-level Clockwork Soul feature

You learn additional spells when you reach certain levels in this class, as shown on the Clockwork Spells table. Each of these spells counts as a sorcerer spell for you, but it doesn't count against the number of sorcerer spells you know.

Whenever you gain a sorcerer level, you can replace one spell you gained from this feature with another spell of the same level. The new spell must be an abjuration or a transmutation spell from the sorcerer, warlock, or wizard spell list.

Clockwork Spells

Sorcerer Level Spells

1st	alarm, protection from evil and good
3rd	aid, lesser restoration
5th	dispel magic, protection from energy
7th	freedom of movement, summon construct
9th	greater restoration, wall of force

In addition, consult the Manifestations of Order table and choose or randomly determine a way your connection to order manifests while you are casting any of your sorcerer spells.

Manifestations of Order

d6 Manifestation

- 1 Spectral cogwheels hover behind you
- 2 The hands of a clock spin in your eyes
- 3 Your skin glows with a brassy sheen
- 4 Floating equations and geometric objects overlay your body
- 5 Your spellcasting focus temporarily takes the form of a Tiny clockwork mechanism
- 6 The ticking of gears or ringing of a clock can be heard by you and those affected by your magic

1st-level Clockwork Soul feature

Your connection to the plane of absolute order allows you to equalize chaotic moments. When a creature you can see within 60 feet of you is about to roll a d20 with advantage or disadvantage, you can use your reaction to prevent the roll from being affected by advantage and disadvantage.

You can use this feature a number of times equal to your proficiency bonus, and you regain all expended uses when you finish a long rest.

In your study of occult lore, you have unearthed eldritch invocations, fragments of forbidden knowledge that imbue you with an abiding magical ability.

At 2nd level, you gain two eldritch invocations of your choice. Your invocation options are detailed at the end of the class description. When you gain certain warlock levels, you gain additional invocations of your choice, as shown in the Invocations Known column of the Warlock table.

Additionally, when you gain a level in this class, you can choose one of the invocations you know and replace it with another invocation that you could learn at that level.

You can cast *mage armor* on yourself at will, without expending a spell slot or material components.

When you select this boon, you may spend a short rest creating an eldritch bond with a cloak that you are touching for the entire time. When completed, the cloak automatically attaches to your body, and cannot be removed from your body without your willing. While this bond exists, you may use a bonus action to teleport up to 30ft in any direction, you may do this a number of times equal to your charisma modifier per short rest.

4th-level warlock feature

Whenever you reach a level in this class that grants the Ability Score Improvement feature, you can do one of the following, representing a change of focus in your occult studies:

- Replace one cantrip you learned from this class's Pact Magic feature with another cantrip from the warlock spell list.
- Replace the option you chose for the Pact Boon feature with one of that feature's other options.
 - If you're 12th level or higher, replace one spell from your Mystic Arcanum feature with another warlock spell of the same level.

If this change makes you ineligible for any of your Eldritch Invocations, you must also replace them now, choosing invocations for which you qualify.

Your Ruidium curse temporarily can be disabled. At each dawn, choose an effect caused by Ruidium corruption affecting you. Then roll a D20. If you roll a 1, you suffer an extra level of ruidium corruption, if you do not, then you ignore this effect until your next long rest..

You can use a bonus action to briefly allow creatures around you to use Ruidium. Chose a willing creature you can see within 30ft of you. This character immediately gains XD10 temporary HP, and when they hit with a weapon attack, they deal an extra XD4 psychic damage (where X is your proficiency modifier)

Note: While attacking this way, characters are considered to be attacking with Ruidium weapons, and will suffer the additional curse levels upon rolling a 1.
