SPEED, SENSES, & CONDITIONS

Dwarven Resilience. You have advantage on saving throws against poison, and you have resistance against poison damage.

Stonecunning. A +9 on History checks related to origin of stonework.

Duergar Resilience. You have advantage on saving throws against illusions and against being charmed or paralyzed.

Sunlight Sensitivity. You have disadvantage on attack rolls and on Perception checks that rely on sight when you, the target of your attack, or whatever you are trying to perceive is in direct sunlight.

Duergar Magic (1/Long Rest). You can cast enlarge and invisibility on yourself. (Spellcasting: Intelligence)

RACIAL TRAITS

Superior Darkvision. You can see in dim light within 120 feet of you as if it were bright light, and in darkness as if it were dim light.

Athlete. When you have the Prone condition, you can right yourself with only 5 feet of movement. You can make a running Long or High Jump after moving only 5 feet.

Unarmored Defense. While you are wearing no armor and not wielding a shield, your AC equals 13.

Martial Arts. Your unarmed strike does 1d6+4 damage. You can use Strength or Dexterity for these attacks.
When you use the Attack action with an unarmed strike or a monk weapon on your turn, you can make one unarmed strike as a bonus action. For example, if you take the Attack action and attack with a quarterstaff, you can also make an unarmed strike as a bonus action, assuming you haven't already taken a bonus action this turn.

Ki. You have 9 Ki Points and your Ki DC is 11

Flurry of Blows (Bonus Action—Ki). Immediately after you take the Attack action on your turn, you can spend 1 ki point to make two unarmed strikes.

Patient Defense (Bonus Action—Ki). You can spend 1 ki point to take the Dodge action on your turn.

Step of the Wind (Bonus Action—Ki). You can spend 1 ki point to take the Disengage or Dash action on your turn, and your jump distance is doubled for the turn.

Unarmored Movement. Your speed increases by 15 feet while you are not wearing armor or wielding a shield. You gain the ability to move along vertical surfaces and across liquids on your turn without falling during the move.

Way of the Four Elements (Remastered). You follow a monastic tradition that teaches you to harness the elements.

Deflect Missiles (Reaction). You can deflect or catch the missile when you are hit by a ranged weapon attack. When you do so, the damage you take from the attack is reduced by 1d10+13.
If you reduce the damage to 0, you can catch the missile if it is small enough for you to hold in one hand and you have at least one hand free. If you catch a missile in this way, you can spend 1 ki point to make a ranged attack with the weapon or piece of ammunition you just caught, as part of the same reaction. You make this attack with proficiency, regardless of your weapon proficiencies, and the missile counts as a monk weapon for the attack.

Slow Fall (Reaction). Reduce any falling damage you take by 45.

Extra Attack. You can attack twice, instead of once, whenever you take the Attack action on your turn.

Stunning Strike (Ki). When you hit another creature with a melee weapon attack, you can spend 1 ki point to attempt a stunning strike. The target must succeed on a Constitution save or be stunned until the end of your next turn.

Ki-Empowered Strikes. Your unarmed strikes count as magical for the purpose of overcoming resistance and immunity to nonmagical attacks and damage.

Evasion. When you are subjected to an effect that allows you to make a Dexterity save to take only half damage, you instead take no damage if you succeed on the save, and only half damage if you fail.

Stillness of Mind (Action). You can end one effect on yourself that is causing you to be charmed or frightened.

Initiate of the Way. You can briefly control elemental forces nearby as a cantrip.
Control Flames. You may use this ability as a cantrip.
Gust. You may use this ability as a cantrip.
Mold Earth. You may use this ability as a cantrip.
Shape Water. You may use this ability as a cantrip.

Disciple of the Elements. You learn magical disciplines that harness the power of the four elements.
Fangs of the Fire Snake. When you make an unarmed attack on your turn, you can choose to strike out tendrils of flames which stretch out beyond your normal reach. Your reach increases by 5 feet for that attack, and it deals fire damage instead of bludgeoning damage. If the attack hits you can spend 1 ki point to deal an extra 1d10 fire damage.
Fist of Unbroken Air. >When you make an unarmed attack on your turn, you can choose to strike out condensed bursts of air which stretch out beyond your normal reach. Your reach increases by 10 feet for that attack. If the attack hits you can spend 1 ki point to force the target to make a Strength saving throw or be pushed back 10 feet and be knocked prone.
Water Whip. You can spend 1 ki point as a bonus action to create a whip of water that shoves and pulls a creature to unbalance it.
Effortless Step. Your jump height and distance are doubled (quadrupled with Step of the Wind) and you gain advantage on Strength (Athletics) checks related to jumping.

CHARACTER PORTRAIT

NAME

SYMBOL

ALLIES & ORGANIZATIONS

Despite my noble birth, I do not place myself above other folk. We all have the same blood.
My favor, once lost, is lost forever.

PERSONALITY TRAITS

Respect. Respect is due to me because of my position, but all people regardless of station deserve to be treated with dignity. (Good)

IDEAL

I will face any challenge to win the approval of my family.

BOND

I secretly believe that everyone is beneath me.

FLAW

You understand wealth, power, and privilege. You carry a noble title, and your family owns land, collects taxes, and wields significant political influence. You might be a pampered aristocrat unfamiliar with work or discomfort, a former merchant just elevated to the nobility, or a disinherited scoundrel with a disproportionate sense of entitlement. Or you could be an honest, hard-working landowner who cares deeply about the people who live and work on your land, keenly aware of your responsibility to them.

Work with your DM to come up with an appropriate title and determine how much authority that title carries. A noble title doesn't stand on its own—it's connected to an entire family, and whatever title you hold, you will pass it down to your own children. Not only do you need to determine your noble title, but you should also work with the DM to describe your family and their influence on you.

Is your family old and established, or was your title only recently bestowed? How much influence do they wield, and over what area? What kind of reputation does your family have among the other aristocrats of the region? How do the common people regard them?

What's your position in the family? Are you the heir to the head of the family? Have you already inherited the title? How do you feel about that responsibility? Or are you so far down the line of inheritance that no one cares what you do, as long as you don't embarrass the family? How does the head of your family feel about your adventuring career? Are you in your family's good graces, or shunned by the rest of your family?

Does your family have a coat of arms? An insignia you might wear on a signet ring? Particular colors you wear all the time? An animal you regard as a symbol of your line or even a spiritual member of the family?

These details help establish your family and your title as features of the world of the campaign.

A knighthood is among the lowest noble titles in most societies, but it can be a path to higher status. If you wish to be a knight, choose the Retainers feature (see the sidebar) instead of the Position of Privilege feature. One of your commoner retainers is replaced by a noble who serves as your squire, aiding you in exchange for training on his or her own path to knighthood. Your two remaining retainers might include a groom to care for your horse and a servant who polishes your

BACKGROUND STORY

Retainers

You have the service of three retainers loyal to your family. These retainers can be attendants or messengers, and one might be a majordomo. Your retainers are commoners who can perform mundane tasks for you, but they do not fight for you, will not follow you into obviously dangerous areas (such as dungeons), and will leave if they are frequently endangered or abused.

Control Flames

Transmutation Cantrip

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous or 1 hour (see below)
COMPONENTS	S

You choose nonmagical flame that you can see within range and that fits within a 5-foot cube. You affect it in one of the following ways:
- You instantaneously expand the flame 5 feet in one direction, provided that wood or other fuel is present in the new location.
- You instantaneously extinguish the flames within the cube.
- You double or halve the area of bright light and dim light cast by the flame, change its color, or both. The change lasts for 1 hour.
- You cause simple shapes-such as the vague form of a creature, an inanimate object, or a location-to appear within the flames and animate as you like. The shapes last for 1 hour.

If you cast this spell multiple times, you can have up to three non-instantaneous effects created by it active at a time, and you can dismiss such an effect as an action.

Control Flames (Monk) *Xanathar's Guide to Everything*

Gust

Transmutation Cantrip

CASTING TIME	1 action
RANGE	30 feet
DURATION	Instantaneous
COMPONENTS	V, S

You seize the air and compel it to create one of the following effects at a point you can see within range.
- One Medium or smaller creature that you choose must succeed on a Strength saving throw or be pushed up to 5 feet away from you.
- You create a small blast of air capable of moving one object that is neither held nor carried and that weighs no more than 5 pounds. The object is pushed up to 10 feet away from you. It isn't pushed with enough force to cause damage.
- You create a harmless sensory affect using air, such as causing leaves to rustle, wind to slam shutters shut, or your clothing to ripple in a breeze.

Gust (Monk) *Xanathar's Guide to Everything*

Mold Earth

Transmutation Cantrip

CASTING TIME	1 action
RANGE	30 feet
DURATION	Instantaneous or 1 hour (see below)
COMPONENTS	S

You choose a portion of dirt or stone that you can see within range and that fits within a 5-foot cube. You manipulate it in one of the following ways.
- If you target an area of loose earth, you can instantaneously excavate it, move it along the ground, and deposit it up to 5 feet away. This movement doesn't have enough force to cause damage.
- You cause shapes, colors, or both to appear on the dirt or stone, spelling out words, creating images, or shaping patterns. The changes last for 1 hour.
- If the dirt or stone you target is on the ground, you cause it to become difficult terrain. Alternatively, you can cause the ground to become normal terrain if it is already difficult terrain. This change lasts for 1 hour.

If you cast this spell multiple times, you can have no more than two of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

Mold Earth (Monk) *Xanathar's Guide to Everything*

Shape Water

Transmutation Cantrip

CASTING TIME	1 action
RANGE	30 feet
DURATION	Instantaneous or 1 hour (see below)
COMPONENTS	S

You choose an area of water that you can see within range and that fits within a 5-foot cube. You manipulate it in one of the following ways.
- You instantaneously move or otherwise change the flow of the water as you direct, up to 5 feet in any direction. This movement doesn't have enough force to cause damage.
- You cause the water to form into simple shapes and animate at your direction. This change lasts for 1 hour.
- You change the water's color or opacity. The water must be changed in the same way throughout. This change lasts for 1 hour.
- You freeze the water, provided that there are no creatures in it. The water unfreezes in 1 hour.

If you cast this spell multiple times, you can have no more than two of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

Shape Water (Monk) *Xanathar's Guide to Everything*

Enlarge/Reduce

2nd-level transmutation

CASTING TIME	1 action
RANGE	30 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a pinch of powdered iron)

You cause a creature or an object you can see within range to grow larger or smaller for the duration. Choose either a creature or an object that is neither worn nor carried. If the target is unwilling, it can make a Constitution saving throw. On a success, the spell has no effect.

If the target is a creature, everything it is wearing and carrying changes size with it. Any item dropped by an affected creature returns to normal size at once.

Enlarge. The target's size doubles in all dimensions, and its weight is multiplied by eight. This growth increases its size by one category - from Medium to Large, for example. If there isn't enough room for the target to double its size, the creature or object attains the maximum possible size in the space available. Until the spell ends, the target also has advantage on Strength checks and Strength saving throws. The target's weapons also grow to match its new size. While these weapons are enlarged, the target's attack with them deal 1d4 extra damage.

Reduce. The target's size is halved in all dimensions, and its weight is reduced to one-eighth of normal. This reduction decreases its size by one category - from Medium to Small, for example. Until the spell ends, the target also has disadvantage on Strength checks and Strength saving throws. The target's weapons also shrink to match its new size. While these weapons are reduced, the target's attacks with them deal 1d4 less damage (this can't reduce the damage below 1).

Duergar Magic (Duergar) *Player's Handbook*

Invisibility

2nd-level illusion

CASTING TIME	1 action
RANGE	Touch
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (an eyelash encased in gum arabic)

A creature you touch becomes invisible until the spell ends. Anything the target is wearing or carrying is invisible as long as it is on the target's person. The spell ends for a target that attacks or casts a spell.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you can target one additional creature for each slot level above 2nd.
